Description: More than fifty years ago, John Coltrane drew the twelve musical notes in a circle and connected them by straight lines, forming a five-pointed star. Inspired by Einstein, Coltrane put physics and geometry at the core of his music. Physicist and jazz musician Stephon Alexander follows suit, using jazz to answer physics most vexing questions about the...

Review: Although I'm a guitarist with over 40 years professional experience in jazz and other American musical idioms, I don't feel qualified to assess *The Jazz of Physics* by Stephon Alexander. Hence, the 3 star review, by which I mean my neutrality as to the book's qualities. The question needs to be asked for whom this book was written. A serious musician...
